## **DETAILED ACTION**

### **CLAIMS PRESENTED**

Claims 1-33 are presented.

### ***Response to Arguments***

Applicant's arguments filed have been fully considered but they are not persuasive. The crux of Applicant's argument is that the logical identifier is not suggested from the physical identifier. Yet, the cited reference ('548 patent) regards the internet access. In an internet access, the use of logical identifiers are inherent – among many others, the aliases for a URL. Unless Applicant wishes to dispute this, Applicant's argument is not persuasive.

### **CLAIM REJECTIONS**

Because Applicant explicitly stated that new claims are of the same scope as that of the old claims, all claims are rejected under the same bases as in the previous Office Action.

### ***Conclusion***

The art made of record and not relied upon is considered pertinent to applicant's disclosure. The art disclosed general background.

Art Unit: 2134

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
